In April 1972, the library moved to the corner of Hooper and Sullivan roads. Finally, the latest location of the Central Branch was opened at 11260 Joor Road and was designed to accommodate a book collection of 100,000 volumes, seating for 125 patrons, 20 computers, a meeting room for 100, and a special storytime room for children.

OBOC Events with Author Gwen Roland

Atchafalaya Houseboat author Gwen Roland delighted audiences with recollections of her years spent living in the Louisiana swamp as part of EBRPL’s One Book One Community celebration. After an informal meet and greet at the Central Branch in her hometown, Roland made appearances at the Main Library at Goodwood for an Author Talk about her book and a presentation in which she encouraged attendees to “Pass It On” by teaching skills, games, and stories to the next generation. Question and answer sessions engaged hundreds of patrons who participated in the weekend of events held on April 23 & 24.

Special guests also included Calvin Voisin, Gwen’s partner in building the houseboat and experiencing life on the bayou during the 1970’s, as well as C.C. Lockwood, whose captivating photographs brought to national attention the adventures of the young pair. For eight years, they gathered vegetables from a floating garden, fish from carefully mended nets, eggs from chickens on rafts, and stories from the few old-timers who still inhabited the Basin.

Roland said goodbye to life on the Atchafalaya after meeting her now husband, Preston, on a Mississippi riverboat. The couple, who have had many adventures of their own including living in the Florida Everglades, now reside in Georgia on a large piece of property, and still look for ways to pass on traditions such as folk dancing, woodworking, and making homemade jellies.

When asked by an audience member how she was able to set aside her fears to live such an intrepid lifestyle, Roland smiled and replied, “Curiosity is a powerful force. If I can see the end of the road, why would I go there?”

It’s not too late to trek through the swamp with Gwen! Borrow Atchafalaya Houseboat from your local Library location or online with the Libby app. There’s even an audiobook to enjoy! Also available for check out is LPB’s Atchafalaya Houseboat documentary, produced by Christina Melton. If you missed the big events, you can still enjoy Gwen’s presentations on Youtube!

GENEALOGY

Newsbank Historical Newspaper Archive

The East Baton Rouge Parish Library’s Advocate Historical Newspaper database is home to millions of pages of full scans of Baton Rouge and New Orleans newspapers dating from 1832 to 1996. This class will teach you how to search and sort this large amount of information and uncover stories about the people, places, and things in your ancestors’ community. Join us at the Main Library at Goodwood on Thursday, June 16 at 6 p.m. Seating is limited to 10 in-person and 15 virtual attendees. Registration is required. To register, please call 231-3751.

Decoding Your DNA: Testing and Results

There are many different genealogy DNA tests on the market today, each with a different set of information, results, and terminology. These tests have their own unique strengths and weaknesses, and each one will help to answer some questions about where you came from. This class will cover the differences in the available tests, tell you the basics of how to read your results, and help you decide which one is right for you. The class will be held on Saturday, June 18 at 1 p.m. on the second floor of the Main Library at Goodwood in the Tech Lab. Seating is limited to 10 in-person and 15 virtual attendees. Registration is required. Please register online at ebrpl.co/genclass.

Maps and Land Records

Land records are some of the most important documents available in genealogy research. Available farm land encouraged westward migration, rewarded military service, fulfilled requirements for voting or holding public office, or simply helped to support the family. Using maps and land records together will help you learn not only when and where your ancestor lived, but why he lived there and how he got there. On Saturday, June 25 at 10:30 a.m. at the Main Library at Goodwood, we’ll look at some of the ways your ancestor could acquire land: including bounty land warrants, federal patents, inheritance, or private sales. You’ll also learn to use maps to ensure that you’re looking in the right places for your ancestors. Class will be held on the second floor of the Main Library in the Tech Lab. Seating is limited to 10 in-person and 15 virtual attendees. Registration is required. Please register online at ebrpl.co/genclass.
