Author Talk Series

The Library continues its Author Talk Series with three new authors in September! Each live, virtual event features a different bestselling author, along with an interactive Q&A session where participants can ask questions directly to the author. See September selections and dates/times below. Visit libraryc.org/ebpl to register for these virtual events, learn about other upcoming conversations with bestselling authors, and view previous author talk recordings.

• Thursday, September 8 at 1 p.m. - Join us in conversation with bestselling author and expert in child development, Dr. Michele Borba, as she discusses her book, *Thrivers: Surprising Reasons Why Some Kids Struggle and Others Shine*. Data shows that today’s youth are the loneliest, most stressed, and risk-averse on record. Though well-educated, they are failing to launch in real life. So how can we teach them to be mentally strong and more successful? Dr. Michele Borba empowers educators and parents to help kids thrive in today’s fast-paced, digital-driven, often uncertain world. Through her research, she found the difference between those who struggle and those who succeed comes down to the personal traits that set Thrivers apart and set them up for happiness and a greater potential later in life. She offers practical, actionable ways to develop these Thrivers traits in kids and shows you how to teach them to cope today so that they can flourish tomorrow in school and life. These are lessons that will last a lifetime.

• Tuesday, September 20 at 1 p.m. - Join us for a conversation with prolific British-American writer, journalist, and consummate adventurer Simon Winchester. This author talk will cover many aspects of his work across myriad fields of history, technology, and geology as well as the author’s personal expeditions, including his path to becoming the acclaimed bestselling author he is today. A master storyteller, Winchester’s narrative is like a journey through time. His keen intellect and ability to precisely and expertly weave everyday life into historical examination leaves his readers feeling awestruck at the world surrounding them. Winchester is a New York Times Bestselling author with an omnibus of more than 30 titles, including *The Professor and the Madman*, *Pacific*, *The Perfectionists*, and most recently, *Land: How the Hunger for Ownership Shaped the Modern World*. Beginning his writing career in journalism, Winchester has found renowned success in the world of non-fiction and now works almost exclusively as an author.

• Tuesday, September 27 at 3 p.m. - Join us for an afternoon with Pulitzer Prize finalist and PEN/Faulkner Award winner Hernan Diaz, author of *In the Distance* and *Trust*. Diaz holds a Ph.D. from NYU and edits the Spanish-language journal, Revista Hispánica Moderna, at Columbia University. Diaz’s new book, *Trust*, is set during the roar of the 1920s around the Wall Street tycoon Benjamin Rask and his wife, Helen. Together, they have risen to the top of the world of seemingly endless wealth—all as a decade of excess and speculation draws to an end. But at what cost have they acquired their immense fortune? This is the mystery at the center of Bonds, a successful 1937 novel that all of New York seems to have read. Yet there are other versions of this tale of privilege and deceit. Hernan Diaz’s *Trust* elegantly puts these competing narratives into conversation with one another—and in tension with the perspective of one woman bent on disentangling fact from fiction. The result is a novel that spans over a century and becomes more exhilarating with each new revelation.

Library Card Sign-Up Month

September is Library Card Sign-Up Month! Your East Baton Rouge Parish Library is joining with the American Library Association and public libraries nationwide to ensure that every child signs-up for their own library card. Since 1987, Library Card Sign-up Month has been held each September to mark the beginning of the school year. A library card is one of the most important and cost-effective school supplies there is! It provides FREE use of online tutoring, databases, print books and magazines, e-books, audiobooks, literacy and stem programs, and so much more! Studies show that children who are read to in the home and who use the Library perform better in school, and they can turn to the Library for materials, programs and knowledgeable staff to support academic achievement.
