Celebrate creative creations at this year’s Baton Rouge Maker Faire on Saturday, October 15, 10 a.m.-5 p.m.! Join us at the Main Library at Goodwood for a gathering of people who enjoy learning and love sharing what they do. From engineers to artists to scientists to crafters, Maker Faire is a venue for “makers” to demonstrate hobbies, experiments, projects, and more! This family-friendly showcase of invention, creativity, and resourcefulness is something you won’t want to miss! On page 2, check out our Maker Faire headliner, Chef Philippe Parola, and Makerspace programs at selected Library branches throughout the month of October! For more information, visit us online at batonrouge.makerfaire.com.

Our 9th Annual Maker Faire will shine a special spotlight on sustainability. Share your upcycling project with us! Send us a before and after photo, and we’ll feature them at this year’s Maker Faire! Upload your pics at ebrpl.co/upcycle, use the QR code provided, or email them to ebrplmakerspace@gmail.com along with your name and a brief description of your project. Upcycling is the process of transforming waste into something new. Upcycling can be any creative re-use or repurposing that gives new life to old stuff, such as plastic bottle planters, a pallet sofa, a quilt made out of old t-shirts, or magazine collages. We can’t wait to see your upcycled creations!

Would you like to participate as a Maker in this year’s Maker Faire? Visit batonrouge.makerfaire.com/call-for-makers to get started!
To highlight the theme of sustainability, “reduce, re-use, and re-make,” Chef Philippe Parola will be headlining at our 9th Annual Maker Faire! Chef Parola is a world class chef who grew up in France after World War II when food was scarce, and hunting and fishing were the best way to put food on the table. He has resided in Baton Rouge since 1981, owning and operating French restaurants, Chez Paris and Philippe’s. He is now focused on a new endeavor. Chef Philippe is on a mission to stop the invasive Asian carp (aka silverfin) from destroying American fisheries by turning them into gourmet food. As detailed in his soon-to-be released book, Can’t Beat ‘Em, Eat ‘Em: Your Guide to Edible Invasive Species, Chef Parola will share his extensive knowledge on some of the world’s worst invasives, as well as step-by-step instructions on preparing gourmet dishes from silverfin and other overpopulated species.

At this year’s Maker Faire, Chef Parola will:

- Demonstrate how to prepare, clean, catch, and cook invasive species
- Discuss how eating invasive species can help the environment and reduce hunger
- Display a 30 lb. Asian Carp
- Distribute pre-cooked Asian carp fish pie and Nutria gumbo

The Baton Rouge Botanic Garden Foundation will host a FREE Garden Discoveries event, “The Spooky Work of Carnivorous Plants” at 10 a.m. on Saturday, October 8, led by Mark Mese who has been involved in the rare plant world for close to 40 years. Mark will present a survey of many carnivorous plants that are grown in community homes and gardens. He will also describe how to grow carnivorous plants and keep them alive to enjoy in the future.

The CPW has plants that have developed many types of traps to catch insects and animals. The traps can be divided into two general types, active and passive. Active traps move and trap prey like the well-known Venus flytrap. Passive traps bait the prey with nectar and the prey falls into or gets stuck to a trap. Nepenthes pitchers are examples of passive traps sometimes seen in nurseries. Mark Mese is a semi-retired lawyer who also has degrees in horticulture and plant breeding.

Storytime at the Library

Storytime gives children an excellent introduction to books and the Library. It increases their attention spans and develops their social skills by involving them in stories, poetry and songs. The Children’s Services staff hopes Storytime will be an enjoyable experience for each child, leading to a lifelong love of books and reading. You are always welcome to attend Storytime with your child. We offer several different Storytime formats. Since children develop at different rates, you may talk with one of our Library staff members to place your child in a younger or older group. For more information, call your local Library. Organized groups must reserve a date and time other than those listed below.
