## Updating Your Genealogy Tool Box Annual Genealogy Conference

The Library will hold its annual Genealogy Conference at the Bluebonnet Regional Branch on Saturday, August 5, from 9:30 a.m. to 12:30 p.m.

Guest speakers Tammy Pruet-Northrup and Colleen Fitzpatrick, Ph.D., will discuss new research tools and technological advances in DNA research and optical laser technology useful in uncovering genealogical information.

Pruet-Northrup, manager for the DNA Unit of Louisiana State Police Crime Laboratory, will talk about the Louisiana DNA database and the role DNA research played in the Hurricane Katrina Relief project. A native of Baton Rouge, Pruet-Northrup is a graduate of LSU with a Bachelor of Science degree in Accounting and a 1991 graduate of the Paul M. Hebert Law Center at LSU. She authored the original version of the Louisiana CODIS law, the first piece of legislation in the country to authorize DNA sampling of arrestees, as well as the expansion of that law authorizing the collection of all convicted offenders and arrestees for felony offenses.

Fitzpatrick, author of *Forensic Genealogy*, widely recognized for its innovative application of forensic science investigative techniques to genealogical research, and co-author of *DNA & Genealogy*, will discuss forensic genealogy and photographic analysis. She is a recognized expert in optical and laser measurement techniques and has extensive experience in the development of innovative technologies for NASA, the National Science Foundation, and the Department of Defense. *Forensic Genealogy* has been featured on NPR's *Talk of the Nation* with Neil Conan (July 2005), and was the cover article for *Internet Genealogy* (Online Bonus Edition June 2006), *Family Tree Magazine* (April 2006) and *Family Chronicle* (October 2005).

The Louisiana Calligraphy Guild will be at the Library from 1:00 to 3:00 p.m. to assist with four-generation family charts. From 2:00 to 3:00 p.m., Dr. Fitzpatrick will give a brief discussion on how to set up a surname DNA project. Participants are asked to bring family pictures.

To register for the Conference and for more information, call (225) 763-2283.

## Genetics and African-American Genealogy

*Who are we? Where did we come from?* Can DNA answer these questions?

Most African-Americans can trace their roots back to slavery before hitting a dead end. However, recent scientific breakthroughs in DNA have led to a whole new field of study in genealogy. New doors are opening in the area of African ancestral research. Geneticists and genealogists are working together to find clues that bring light to unanswered questions.

Russell L. Jacquet-Acea, author of the book *The Sons & Daughters of Jean Baptiste Jacquet: The History of the Black Jacquet Families in Louisiana*, will discuss these new discoveries, as well as his own research, at the Baton Rouge Genealogical and Historical Society meeting on Saturday, August 19, at 10:00 a.m. at the Bluebonnet Regional Branch Library.

To register and for more information, call (225) 763-2283.

## New Appointments to the Library Board of Control

The Metropolitan Council appointed new member Stephen Moret to the East Baton Rouge Parish Library Board of Control on Wednesday, June 14.

Moret, president and CEO of the Baton Rouge Area Chamber of Commerce, will take the position vacated by long-term board member John Carnahan. President of the Library Board of Control from 1994 to 2006 and a member for more than 22 years, Carnahan stepped down from his position in June.

Expressing pride in what he helped accomplish for the Library, Carnahan said "We have come a long way since the beginning and I am enthusiastic about Stephen Moret coming on board. I feel real good about this operation."

During his tenure, Carnahan was involved in three tax referendums in which funds collected built new facilities throughout the parish; increased hours of service; greatly expanded collections; installed an automated catalog and computer system; and provided computers for library staff and the public with access to the Internet and online databases.

Stephen Moret brings expertise in the areas of business, health, environment, education, marketing, and public affairs to the Library Board of Control. His breadth of knowledge and experience makes him the ideal choice to help carry on the Library's mission.

"One of my greatest dreams," says Moret, "is for the Baton Rouge area to become a learning community."

"Few things are more important to making this dream a reality than supporting the growth and development of our public libraries. For that reason, I am delighted and honored to join the East Baton Rouge Parish Library Board of Control. I also am humbled to be replacing John Carnahan who has so faithfully served the citizens of Baton Rouge on this board for over 20 years. Mr. Carnahan helped see the library through some of its greatest challenges and development milestones. All of us owe him thanks for his many years of dedicated, selfless service to our community."

The Library Board of Control consists of five members who have the authority in the operation of the Library to hire the library director; establish written policy; secure adequate funding; approve the budget; provide and maintain facilities, resources, and services; help promote and advocate for the library; help develop and approve the library's plan of service; and participate in opportunities for continuing education.

On Thursday, June 15, the Library Board of Control voted to elect Georgia Brown as the new president. Previously the Vice-President, Brown has been a Board member since 1983. She is a retired educator and library administrator. Daniel Reed was elected Vice-President. A local attorney, Reed has been a board member for 11 years. The fifth board member is retired educator Katherine Auer.

The East Baton Rouge Parish Library Board of Control meets on the third Thursday of each month at 4:00 p.m. in the Library Board Room on the second floor of the Main Library. The public is invited to attend.

### HOW TO EAT FRIED WORMS!

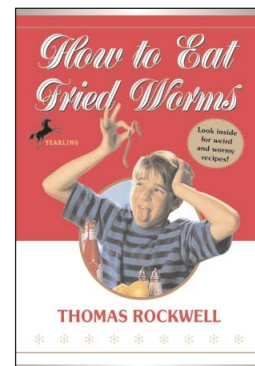

*Coming to a theater near you...How to Eat Fried Worms!* The movie is based on the Thomas Rockwell book of the same name—a perennial seller since its publication in 1973 that has sold nearly three million copies worldwide.

*How to Eat Fried Worms* is the story of Billy, an 11-year-old who inadvertently challenges the town bully on his first day at a new school. To save face and earn the respect of his new classmates, Billy agrees to a bet that will determine his fate at school—whether or not he can eat *ten* worms in one day.

As the pressure mounts, Billy must summon heroic strength to keep his five-year-old brother from blabbing, his weak stomach from betraying him, and his big mouth from getting him into more trouble than he's already in.

Rockwell is the author of numerous books for young readers and has received The Mark Twain Award, the California Young Reader Medal, and the Sequoyah Award for *How to Eat Fried Worms*.
