

CRAFTY CHALLENGE

Frisbee Make and Play

Make this frisbee, then burn off some energy by playing catch outside with a friend, maybe even a furry one!

What you'll need:

*2 paper plates
Scissors*

*Markers or crayons
Clear or colored tape*

Step 1: Take your 2 plates and decorate the curved edges. Don't decorate the middle because you will be cutting that out.

Step 2: Place both plates together so that the decorated sides are facing out. Holding the plates together, cut a circle out of the center of each plate.

Step 3: Tape the two plates around the edges so that there aren't spaces along the edges.

And there is your Frisbee!
