

# DRAW & DESIGN

## Create a Knight Crest

**You can make a knight crest that you design yourself out of markers (or paint) and an old pillowcase!**

You will need:  
an old pillowcase (an old t-shirt or a brown paper bag also work),  
markers or paint (use washable markers if you want to be do this craft again and again), scissors

Use the attached template to brainstorm some ideas. Once you have an idea of what you want to do, follow these instructions:

1. Cut head and arm holes out of the pillowcase (be sure and get an adult to help).
2. Draw an outline of a shield on the front of the pillowcase (ask an adult to help if you need to).
3. Using markers or paint, design and create your own crest on the shield.
4. After your crest dries, put on your colors and defend your castle from dragons!
