EXTRA CRAFTY
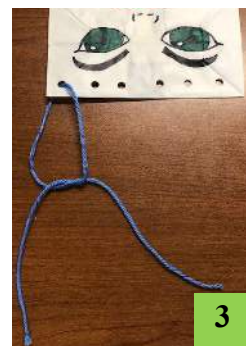

Mermaid Puppet

Create this cute mermaid puppet.

You will need:
a paper bag, yarn, hole punch, crayons/markers/colored pencils, scissors

Directions

1. Gather your supplies and make sure your bag is flap-side up!
2. Draw your Mermaid's face on the flap. The top lip should be on the flap and the bottom lip should be just below the flap.
3. Next, loop your yarn through the holes at the top and tie them off. This will be your mermaid's hair.
4. Now it's time to color, cut out, and glue on your mermaid's shell top.
5. Now it's time to design you mermaid's tail! There are two ways to do it. For two side fins, cut a tri-angle at the bottom center of the paper. For one longer fin, cut the bottom corners off your mermaid, and glue them.
6. Finish designing and coloring your mermaid's fin, and BOOM you've made a Mermaid Puppet!
