

EXTRA CRAFTY

Walking Water Rainbow Cups

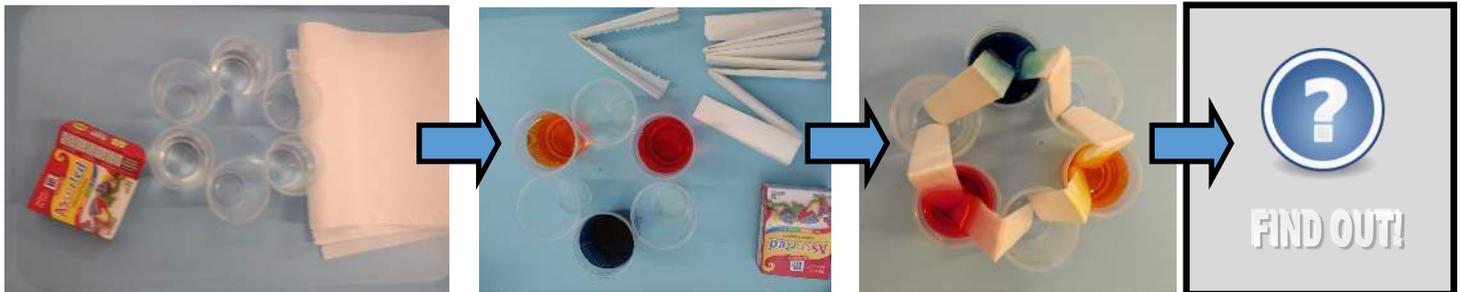

SUPPLIES:

-6 cups

-water

-food coloring

-6 paper towels

INSTRUCTIONS:

1. Place the cups in a circle.
2. Fill every other cup half full with water.
3. Color the water. Make one cup of red, blue, and yellow.
4. Fold each paper towel into a long thin tube. Then fold the tube in half at the midpoint making a V shape.
5. Holding the V by the point, put the towel into two cups (one colorful and one plain) at the same time. Continue around the circle until the whole circle is connected by paper towels.
6. Watch and wait. The water will climb the paper towels...this may take a while.
7. Check on your cups periodically. What is happening to the cups that had no water?
