

Seasons Kaliedocycle

The seasons rotate through the year without fail. Summer follows spring follows fall follows winter in an endless loop. You can represent the rotation of seasons with this fun rotating paper fidget toy!

SUPPLIES:

- kaliedocycle printout (better on cardstock, but okay on paper)
- glue or tape
- scissors
- crayons or markers

Directions:

- Color your seasons kaliedocycle
- Cut out the kaliedocycle
- Fold and unfold both ways on each line
- Glue or tape the top of Tab A over gray triangle A. Repeat for B and C.
- Fold shape around into a circle and slide the remaining trapezoid tab into the opposite end and secure with glue or tape.
- Press gently on the center of the kaliedocycle to rotate through the seasons!
