Morse Code Translator

Learn Morse Code and communicate secret messages!

Morse Code was invented in the 19th century for telegraph communication before being used over the radio and by the military. It is a series of dots and dashes which represent different letters or numbers. Morse Code can be communicated through text or by sound. Find a Morse Code Translator online (or use the one attached) and practice learning how to communicate using dashes and dots! In the examples below, each letter is separated by a large space.

Can you create your own message in Morse Code?

1. - - -

2. - . - . - . -

3. - . . . - - - - .

4. - -

5. - - - . - - . . . - . - . - -

Answers: 1. Spy 2. Secret 3. Code 4. Clue 5. Mystery
