

DRAW & DESIGN: Travel Photos

It's time to show off your travel photos!! Where in the world did you go? Did you visit a beach? Or a busy city? Or a famous landmark? Or a beautiful forest? Maybe you visited all those and more!

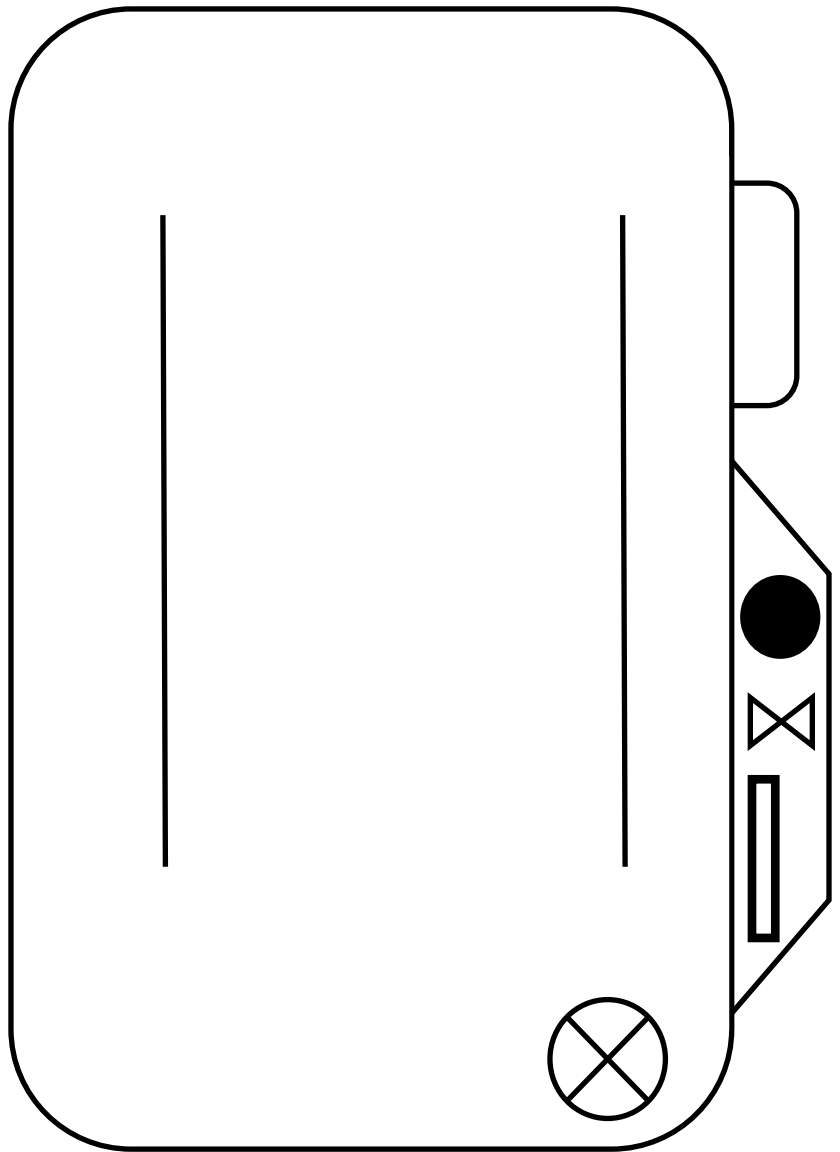

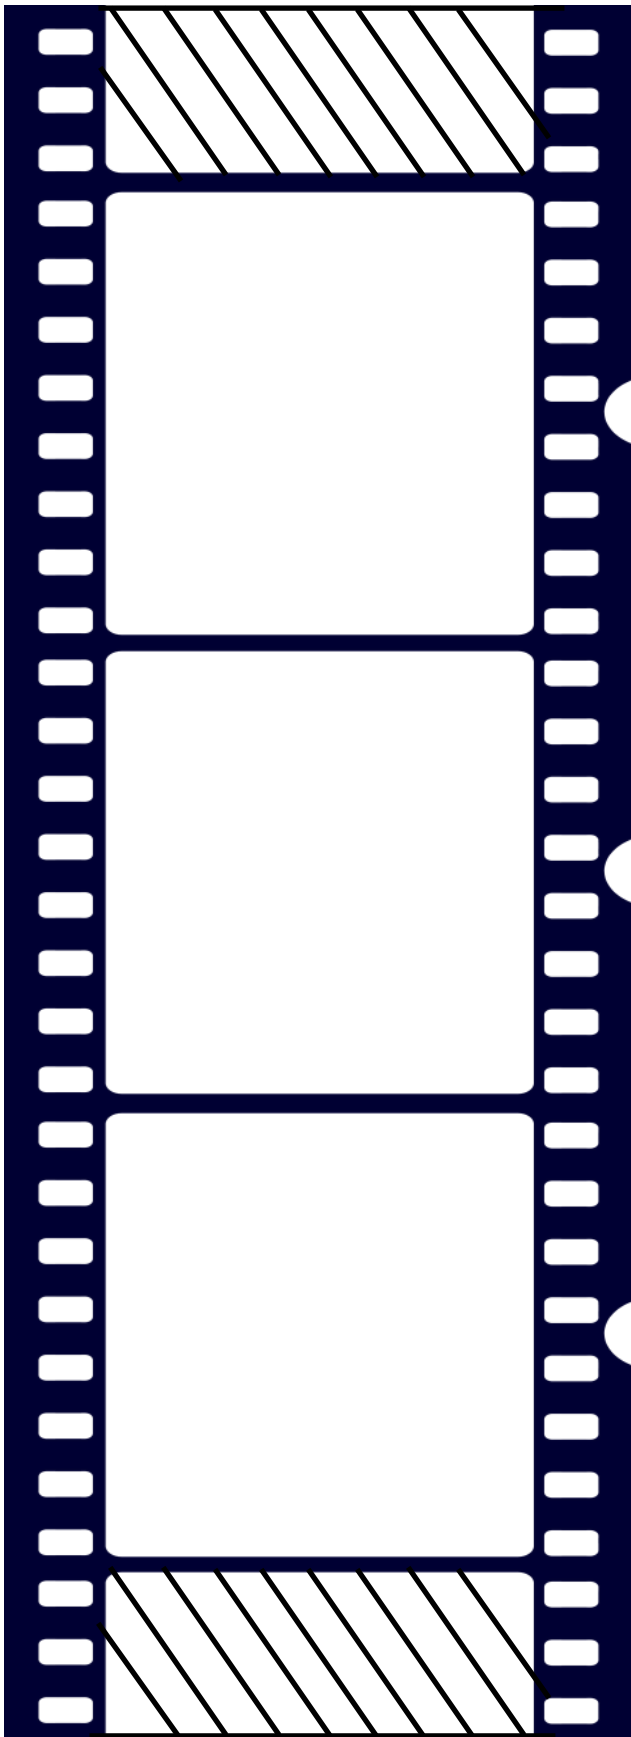

Show off your photos!

Cut out the camera template. Use an Exacto knife to make slits along the two solid lines. The film strip will slide through the two slits. Color and decorate your camera. Or trace the template onto cardboard (like a cereal box) for a more durable camera.

Cut out the film strip. Draw and color pictures of what you saw during your travels inside the white sections.
