Libraries *Change Lives*

John Walker, co-founder of Hubley

Hubley, a now successful software application company, started out in 2015 like many businesses, with a few ideas and a dream. John Walker, co-founder of Hubley, along with three colleagues, converged in a meeting room at the Main Library at Goodwood to plan how to make their dream into a reality. And they succeeded! Hubley blossomed into an organization with over 50 team members throughout the country, and they recently won first place for “Best Place to Work” in the *Baton Rouge Business Report*.

In the company's infancy, the Hubley team met at the Main Library at Goodwood because one of John's business partners recommended the space. They used the meeting rooms to brainstorm ideas about building their company's features, plus branding and marketing strategies. “The Library's amenities are nice; it's a beautiful space, and the staff were always super friendly and accommodating whenever we would meet there. We used the Library's facilities because it was a resource that didn't cost money which was huge because it was one of the only options that we had at the time.” Hubley now resides at their own offices on Perkins Road, but are thankful to have had a meeting place at the Library in the early days of creating a vision for the company.

Hubley began as a typical consulting company. They worked with organizations to build their intranets, but they felt that there was a gap in the marketplace. “As we were continually consulting with organizations, we realized that they all had similar needs, which began the process of us putting together the framework for Hubley,” shared Walker. Hubley provides the communication infrastructure for organizations through software applications and features. The online platform is meant to be your company's friendly hub, the central place where your organization goes to collaborate. Hubley helps businesses connect and communicate more effectively to best engage their workforce.

Recently things have come full circle for Hubley as they are now designing software applications for the Library. “The Library system saw the value of Hubley, and we helped implement the Library's intranet.” Hubley has worked with the Library on a few projects to help build and improve communication among its staff. Having experience working with EBRPL also gave the Hubley

team experience to work with other Library systems across the country.

Special thanks to John Walker from Hubley for sharing his story with us!

Wednesday, March 6 at 3 p.m. – You are invited to an intimate conversation with Nina Totenberg as she talks about her nearly fifty-year friendship with Supreme Court Justice Ruth Bader Ginsburg and her book *Dinners with Ruth: A Memoir on the Power of Friendships*. Four years before Nina Totenberg was hired at NPR, where she cemented her legacy as a prizewinning reporter, and nearly twenty-two years before Ruth Bader Ginsburg was appointed to the Supreme Court, Nina called Ruth. A reporter for *The National Observer*, Nina was curious about Ruth's legal brief, asking the Supreme Court to do something to declare law that discriminated "on the basis of sex" to be unconstitutional. In a time when women were fired for becoming pregnant, often could not apply for credit cards or get a mortgage in their own names, Ruth patiently explained her argument. That call launched a remarkable, nearly fifty-year friendship. *Dinners with Ruth* is an extraordinary account of two women who paved the way for future generations by tearing down professional and legal barriers. It is also an intimate memoir of the power of friendships as women began to pry open career doors and transform the workplace.

Thursday, March 14 at 3 p.m. – Join us as we chat with master storyteller and internationally bestselling author Christopher Paolini about his return to the *World of Eragon* with *Murtagh*, a stunning continuation of the epic fantasy. The world is no longer safe for the Dragon Rider, Murtagh, and his dragon, Thorn. An evil king has been toppled, and they are left to face the consequences of the reluctant role they played in his reign of terror. Now they are hated and alone, exiled to the outskirts of society. Throughout the land, hushed voices whisper of brittle ground and a faint scent of brimstone in the air—and Murtagh senses that something wicked lurks in the shadows of Alagaësia. So begins an epic journey into lands both familiar and untraveled, where Murtagh and Thorn must use every weapon in their arsenal, from brains to brawn, to find and outwit a mysterious witch. A witch who is much more than she seems. *Murtagh* is the perfect book to enter the *World of Eragon* for the first time . . . or to joyfully return.

Thursday, March 21 at 6 p.m. – You're invited to a fascinating exploratory conversation with Madeline Miller, bestselling author of *The Song of Achilles* and *Circe*, as she chats with us about her body of work and her process in retelling Greek classics as modern epics of fiction. In *The Song of Achilles*, Achilles, "the best of all the Greeks," son of the cruel sea goddess Thetis and the legendary king Peleus, is strong, swift, and beautiful, irresistible to all who meet him. Patroclus is an awkward young prince, exiled from his homeland after an act of shocking violence. Brought together by chance, they forge an inseparable bond, despite risking the gods' wrath. In *Circe*, a daughter is born to Helios, god of the sun and mightiest of the Titans. But Circe is a strange child--neither powerful like her father nor viciously alluring like her mother. Turning to the world of mortals for companionship, she discovers that she does possess power: the power of witchcraft, which can transform rivals into monsters and menace the gods themselves. To protect what she loves most, Circe must summon all her strength and choose, once and for all, whether she belongs with the gods she is born from or with the mortals she has come to love.

MARCH INTO SPRING

Garden Discoveries

The Baton Rouge Botanic Garden Foundation will host a FREE Garden Discoveries series event, "Creating a Bird-Friendly Yard," at the Main Library at Goodwood on Saturday, March 9 at 10 a.m., led by Jane Patterson, an avid birder, amateur photographer, and Master Naturalist, who loves to share her knowledge of birds with others. When we think about bringing birds to our yards, putting out bird feeders often comes to mind. And while feeders can be very effective, there are other ways to attract our feathered friends that will ensure a larger variety. This program will describe various types of bird feeders and bird houses, as well as water sources that benefit birds. Jane will also discuss gardening with birds in mind; offering plants that provide cover and nesting opportunities; and enticing food sources. Special focus will be given to the importance of using native plants in our home landscapes. Weather permitting, a tour will follow of the Baton Rouge Botanic Gardens adjacent to the Library. Registration is available at ebrpl.com/calendar, or call 231-3750 for registration assistance. Learn more at ebrpl.co/garden.

EBR Master Gardeners

March is the month to garden. Join Master Gardener Kathy Mullin for "All About Herbs." Kathy likes to divide herbs into three categories: those that are easy to grow, those that need some special care, and those that can be challenging. In addition, she will give out information on how to preserve them by drying or freezing them, and even some crafty things you can do with herbs. Following Kathy will be Advanced Master Gardener Leo Broders with a presentation on "Fruit Producing Favorites in Louisiana." Baton Rouge is extremely fortunate because here you can grow an eatable landscape of fruit that provides great nutritional benefits. Being able to harvest and consume fruits that may come from trees, bushes, or vines in your own backyard will introduce you to new flavors that aren't available with store-bought produce.

"Lawn and Turf" and "Native Plants" will be presented on Thursday, March 21 at 6:30 p.m. at the Jones Creek Regional Branch. Master Gardener and golfer, DG Ewing will present "Lawn and Turf." He will include the varying species available, selecting and establishing turf, how to do it yourself, and the importance of soil testing. He will also cover the routine you should follow in caring for your lawn and some problems that could occur. Next will be Master Gardener Gaynelle Wolff with a talk on "Native Plants." She will introduce you to the many native plants that would love to take over your yard. Everyone today is interested in improving the environment, and ecologists know that using native plants not only makes gardening easier but is also beneficial for all the animals that live in and around our yards.

These programs are free and open to the public. For more information on the 2024 Library Series and other outreach activities, visit the EBRMGA website at ebrmg.wildapricot.org.

Books and Music with the Kids' Orchestra

Collect new musical skills! Discover new library books! Learn new dance steps! Kids' Orchestra invites children, ages 5-11, to an experiential program that combines library books with music education. Each month, children will explore a theme as they learn about an instrument, sing a song, explore a dance, and play a game – all inspired by a book in the East Baton Rouge Parish Library collection.

Did you know that we are all born with a musical instrument inside of our bodies? It's called vocal chords! We use this instrument to talk and to sing. We can also use our bodies to create percussive sounds. For the March session of Books & Music, we will learn to use our voices and bodies to create beautiful music. Joe Raposo's book and song entitled *Sing* (originally made famous on Sesame Street) reminds us that a song "can last your whole life long." Come sing, dance, meet professional musicians, and experience the many health benefits of singing at the Library!

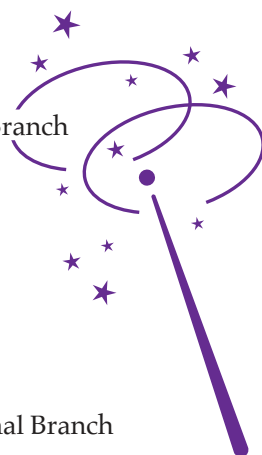

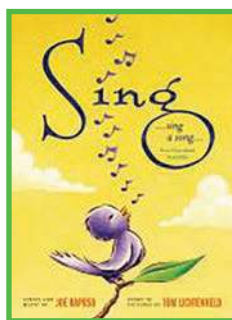

See below for opportunities to attend this fun program! *All children under the age of 9 must be accompanied by an adult. Registration is required.*
